

Fairways Apartments – Olhão

Located in Olhão just outside the centre of town, these apartments are of modern architectural design offering pleasant views to the sea and surrounding hills and countryside. Just released, the first phase also benefits from overlooking the new Golf course, and will be popular for the holiday rental market all year round due to this location.

Olhão is a traditional town from where large fishing fleets depart, it has maintained its fishing village spirit but is now moving forward with modern facilities being built such as yacht marina, sports complexes and a golf course. The sea food festival is held annually and it grows in quality and popularity year by year already well known throughout Europe.

Finished to a particularly high standard, the rooftop terrace of the building has a Spa bath and sauna, surrounded by wooden decking making this a well thought out “Lifestyle” complex.

Each apartment has been allocated a parking space in the spacious basement which is accessed via a remote controlled door. As the development is located within its own cul-de-sac, there is also plenty of parking at street level. The paving surrounding the building is in the traditional Portuguese cobble stone with lush gardens, municipal lawns and palm trees.
